

Guiding children's growth

NEWSLETTER

WEEKLY OVERVIEW

This week, our focus is on all aspects of recycling, with particular attention on what can and cannot be recycled. The children have shown great enthusiasm and curiosity as they explore this important topic. We are also placing a strong emphasis on the concept of reusing – finding creative and practical ways to give everyday items a new lease on life.

JUNIORS

In the Juniors area, we are exploring practical ways to incorporate recycling within the room environment, as well as discussing how we can extend these practices to our homes. The children are actively engaging in conversations about sustainability.

SENIORS

In the Seniors area, we are delving deeper into the importance of recycling and exploring how our actions can contribute to a cleaner, safer environment – both within our school and the wider community. The children are developing a stronger sense of environmental responsibility and are thinking critically about how they can make a positive difference through sustainable practices.
